Education

Graphic Era Hill University

Bachelor of Technology in Computer Science and Engineering, CGPA: 8.53/10.0

October 2022 – June 2026

Uttarakhand, India

BLM Academy

CBSE Board – Class X (72.5%) | Class XII

March 2020 – June 2022

Uttarakhand, India

Professional Experience

GemAI Pvt. Ltd.

April 2026 – July 2026

Full Stack Engineering Intern

Remote

- Built the **Sylus LinkedIn Chrome extension** using **JavaScript**, enabling AI-powered LinkedIn engagement through automated comment replies and content generation.
- Delivered UI enhancements and a drag-and-drop **Kanban board** (Agency Tasks) for **Sylus AI**, an AI-powered social media automation platform that researches trends, generates content, and schedules posts, built with **Next.js**, **React**, and **dnd-kit**.
- Implemented the **Team Chats** and **AI Consultant** modules across frontend and backend with **Supabase** and **OpenAI** APIs, supporting real-time messaging and AI-driven consultation features.

GreenFuel Energy

February 2025 – July 2025

Full Stack Web Developer Intern

Remote

- Built an Asset Management system and a budget management application with multi-tier approvals in **Next.js** and **Tailwind CSS**, streamlining organizational workflows by **30%**.
- Engineered role-based access control (RBAC) and validation workflows across Budget Requester, Approver, and Admin roles, supporting **200+ active users**.
- Managed deployment on Windows Server with **NGINX** configuration, achieving **99.9%** uptime.

Go Hackathon

December 2023 – May 2024

Software Development Intern

Remote

- Led development of responsive user interfaces for **2+ client projects** with **React.js**, **Next.js**, and **Tailwind CSS**, increasing user engagement by **20%**.
- Collaborated with UX/UI teams to architect reusable component libraries in **ShadCN** and delivered **WordPress solutions** for **5+ clients**.
- Supervised a **10-member** development team, ensuring zero project delays and reducing code defects by **15%** through structured code reviews.

Technical Projects

Procurexio - Procurement Management Platform | *Next.js, MySQL, JWT, Google OAuth* | [Live](#)

April 2026

- Architected a multi-tenant **SaaS procurement platform** built on **Next.js** and **MySQL** to manage RFQs, vendor bids, contract awarding, and procurement workflows with organization-level data isolation.
- Integrated **JWT authentication**, **Google OAuth**, **RBAC** for 5 user roles, audit logging, automated email notifications, and bid evaluation workflows for procurement teams.

ConnectNow - Real-Time Chat Application | *Next.js, NextAuth, Pusher, MongoDB*

May 2024

- Created a real-time chat application powered by **Next.js** and **MongoDB**, enabling one-to-one and group conversations with instant message delivery.
- Integrated **NextAuth.js**, **Pusher**, and **Cloudinary** for secure authentication, WebSocket-based messaging, and media sharing with persistent storage.

Technical Skills

Programming Languages: Java, C, C++, JavaScript, TypeScript, Python, SQL

Frontend Technologies: HTML, CSS, React.js, Next.js, Tailwind CSS, ShadCN UI, WordPress, Figma, Responsive Design

Backend Technologies: Spring Boot, Spring Security, Spring Data JPA, Hibernate, RESTful APIs, Node.js, Express.js

Databases: MySQL, MongoDB, H2 Database, PostgreSQL, Supabase

DevOps & Tools: Git/GitHub, Maven, NGINX, Postman, VS Code, IntelliJ IDEA, Docker

Cloud & Authentication: Cloudinary, Pusher, NextAuth, JWT, Vercel

AI & Automation: OpenAI API, Chrome Extension Development

Core Competencies: Data Structures, Algorithms, OOP, Database Management, Computer Networks, Operating Systems

Key Achievements

- Delivered **4+ production-ready applications**, contributing to real-world deployments across full-stack systems.
- Optimized and secured **25+ RESTful APIs** using RBAC, JWT, and OAuth, improving system reliability and maintainability.
